CCTV & SURVILLANCE

In today's fast-paced world, where security concerns are ever-present, the utilization of Closed Circuit Television (CCTV) and surveillance systems has become increasingly vital. These technologies not only provide a means of monitoring and recording activities in various environments but also serve as powerful tools in deterring crime, enhancing safety, and improving overall security measures.

We provide scalable and intelligent CCTV monitoring solutions that incorporate high-resolution CCTV cameras for enhanced image quality at low bandwidth, CCTV monitoring systems, optimized storage, coupled with intelligent digital recording and analysis. We offer these solutions with robust communication backbone over fibre optic, LAN, wireless and other technologies based on the requirement and existing infrastructure availability, along with options of remote monitoring and recording, including Cloud Solutions.
